12V Regulator/Rectifier 6-12V Conversion Product no.: RR12V-1

Replacement regulator rectifier for our 12 volt conversions. Supplies both regulated AC for lights and DC for indicators and horns. This part is OEM quality (NOT manufactured in China) and has the right pin configuration and rating for our conversions. Suitable for use with a battery or a battery eliminator. Spare part for our kits 12VC 1 to 5.

Sorry but we are unable to provide technical help for your own 12V modifactions. We supply full kits to avoid problems; our kits come with pictorial instructions, fitting guides and tech support.
